The duration of the contract is for a primary period of five years with five extension options of one year each at PTLCL's option. The contract value is approximately RM239.12 million, excluding the option period. This contract is expected to commence by second half of year 2021 with the delivery of the first vessel. Hence, it is expected to contribute positively to the earnings and net tangible assets of the Company for the financial year ending 31 December 2021 and beyond.

Due to the global spread of Covid-19 pandemic and low oil prices, the Company's operation is expected to be affected as well. The Company expects a possibility of a lower revenue due to fewer spot charter, longer maintenance period and adjustment on the charter hire price.
